

Ranjiv Khush was elected as a Director of the Marin Municipal Water District (MMWD) in November 2022. MMWD supplies water to over 190,000 residents of Marin County in the Northern San Francisco Bay Area. Ranjiv has served as the President and Vice-President of the Board of Directors, which is responsible for establishing policies regarding the District's mission, goals, and operations, for representing the public in deciding issues related to water supply and watershed management, and for adopting ordinances that have the force of law within the District. He currently serves as Chair of MMWD's Watershed Committee and as Vice-Chair of its Planning Committee.

Ranjiv is also the co-founder of The Aquaya Institute (Aquaya), a leading research consultancy for international water and sanitation development. As Aquaya's Executive Director, he managed 20 years of partnership with government authorities, municipal utilities, and donor agencies to improve water and sanitation services across 30+ countries in Africa, Asia, and Latin America. He raised over \$30 million in funding from USAID, the World Bank, the Asian Development Bank, the Gates Foundation, the Hilton Foundation, and other clients. He also co-authored over 40 peer-reviewed research papers.

Previously, Ranjiv developed international science policy in the Office of the Science and Technology Advisor to the U.S. Secretary of State. He was also a Research Scientist at Stanford University and the Centre National de la Recherche Scientifique (CNRS) in Paris, France. Ranjiv holds a PhD degree from the University of California, Santa Cruz, and MSc and BSc degrees from the University of California, Davis.
