

Rebecca K. Guo

PE, PMP, ENV SP

El Dorado Water Agency | General Manager

Experience Summary

Rebecca Guo has served as the General Manager for the El Dorado Water Agency in El Dorado County since 2023 and before that supported the Agency for over seven years on various projects and program efforts as both staff and consultant. Prior to joining the Agency, she was a principal water resources engineer consultant and provided water resources planning and management services to California water agencies in the Sacramento and San Joaquin Valleys, DWR, and U.S. Bureau of Reclamation. Rebecca has over 16 years of experience leading, managing, and supporting projects addressing a broad range of water resources issues, including long-term water supply reliability, drought resiliency, and flood management. She also brings a history of advocating for water supply reliability for various regional water agencies and coordinating a diverse range of interested parties for large-scale multi-benefit and adaptive planning projects.

Rebecca is currently appointed to sit on ACWA's Agriculture Committee and Federal Affairs Committee as a Region 3 representative. She is also an active contributor and participant to ACWA Headwaters Working Group, ACWA Region 3, and at ACWA conferences.
