

Water Blueprint

for the San Joaquin Valley

Aligning ACWA's
Vision with the
Water Blueprint
for the San
Joaquin Valley

The Urgency and the Opportunity

Chronic surface shortages, SGMA limits, and up to 1M acres of fallowing.

Rural communities and food security are at risk.

Executive Order 14181 provides an opportunity to rebalance and restore reliability.

Unified Water Plan provides a roadmap to solving water shortages

Align on a Shared Vision for California's Water Future

- ▶ • ACWA's Strategic Plan can integrate the Blueprint's quantitative data and regional insights.
- ▶ • The Blueprint serves as a case study in regional collaboration and shared governance.
- ▶ • Together, ACWA and Blueprint can present a unified vision emphasizing reliability, innovation, and sustainability.
